VICOM Infinity

Storage

Using industry leading storage products to design powerful technology infrastructures for medium to large IT Enterprises.

Corporate needs for storage solutions are straightforward: to access, share, protect, and manage critical company data across the enterprise. However, configuring the right system to meet those needs can be complex, with company productivity and performance hanging in the balance.

At Vicom Infinity, it is our business to stay current with world-class products and service solutions.

Our knowledgeable technical specialists undergo extensive training to ensure that every solution we implement delivers the high performance and flexibility our customers expect.

Vicom Infinity matches world-class products with intelligent, comprehensive service for customized configurations. Our technical specialists work closely with your internal team to develop storage solutions that address both immediate and evolving data management needs, and we provide ongoing support to ensure your company is prepared for continued growth.

Our services include:
- System Design
- Capacity Planning & Modeling
- Disk/Tape/SAN/NAS Migration Planning, Management, & Performance Tuning
- IBM® Disaster Recovery Planning & Implementation
- Installation Planning & Implementation
- Software Migration & Installation
- System Upgrade, Migration, & Conversion Services
- IBM Maintenance Services
- IBM Software & Defect Support Services
- IBM Professional Services
- Staff Training

VICOM INFINITY STORAGE SERVICES DELIVER VALUE:

- ■ Uses industry leading storage products
- ■ Our specialists continually undergo training on the latest storage strategies and technologies
- ■ Customized strategies and ongoing support ensures your data management is efficient and ready for growth

Vicom Infinity's sophisticated IT solution offerings can include a broad range of products through its authorized partnerships. As an authorized IBM Business Partner, Vicom Infinity is certified to:
- Remarket IBM Hardware, IBM Software, IBM Warranties, & IBM Services
